

## **REPORT ON SEVENTH YEAR OF ACTIVITY**

### **WESAK 1988**

Dear friends and co-workers,

The past year has been for the IPS an eventful year, rich in changes: its President has left, its Secretary-General and First Secretary have got married, the headquarters have moved to a new address, an Italian section has been started with the help of a new co-worker, Deborah Clerc and we have participated in group activities in three continents: Europe, North America and Africa. A branch of the IPS has just been created in Spain, after a full year of intensive activity by our co-workers in Barcelona, who have started in a very concrete and practical way to work in seed-groups. After our Secretary-General participated in an international conference on Conflict Resolution and Creative Leadership in Colorado Springs, in the U.S., many new contacts to group movements in that country were established, leading to his participation in 1988 in the Peace Through Education Conference organized by the Robert Muller School and the University for Peace of the United Nations in Arlington, Texas, and in the Second International Conference on Esoteric Psychology organized by the Seven Ray Institute and University of the Seven Rays in New Jersey.

Thanks to our friend in Poland, Barbara Rowinska, information on the IPS has been made available in Polish as well as many booklets of the WTT. She is also translating the book "Our Heritage" into Polish and has given her address as a contact address in Poland. Of course, because of the political situation in that country, a branch of the IPS or WTT cannot be officially founded in Poland.

The Institute has also been invited to embark in a new area of activity: radio programming. The Chancellor of the World Peace University, Mr. Richard Schneider, offered to the Institute four broadcasts on Radio for Peace International, the radio station of the University for Peace in Costa Rica. Two have already been produced and sent to Costa Rica, with the help of an American friend in Geneva, Sanda Freeman, who is also a writer and an actress. A good friend in Geneva did the translation into Spanish of the first broadcast, and this is being typed in Barcelona to be sent to Costa Rica, since Radio for Peace International has bilingual programs (English and Spanish).

Following insistent suggestions from our former President, Dr. Wiltrud Fritzsche, we have also finally created a short presentation of the Institute, its aims and activities, in the form of a folder. It has already proved very useful, saving both time and mailing costs to people who write to us for the first time asking for general information on the Institute. The folder is for the moment available in English, German and Polish, a Spanish and a French version are in preparation.

We have been much helped in this work by our new computer, a Macintosh SE. In spite of the many hours of frustrating struggle to understand how it works, it has already saved

us much time and allowed us to increase our efficiency as far as the drafting and publication of the newsletter and other administrative tasks are concerned.

We have thus been able to carry out our project of expanding the newsletter to include a new section on esoteric studies, based on the teachings given to us by Dr. E. Krishnamacharya and the teachers trained by him in the World Teacher Trust India. The heading of the newsletter has been changed to reflect this contribution of the WTT to our work. It now shows both the names of the Institute and of the WTT, accompanied by their symbols, the three triangles and the winged globe.

Financially, this past year has been one of the hardest in the history of the Institute. We had again a deficit in our running account and our Secretary-General, our only paid worker, has felt the need to renounce to his salary a few times in order to keep the Institute going. More details about the financial situation will be given when we discuss the financial report. For the moment, we would just like to say that as a result of the difficult financial situation of the past year, we have considered stopping completely the payment of salaries, in which case our Secretary would need to take up another remunerated activity. We have decided however to try instead deploying more effort on fund-raising activities. This is now in process.

Since later this morning we have to elect a new President, we would like to shortly introduce our candidate, Ms Rosemarie Weibel. She was born in Switzerland, in the canton of Lucerne, and has been living in Geneva for a few years. She worked until last year as the director of Foyer Handicap, a charity institution for physically handicapped persons. Last year she began studying at the Arcane School and has been working since January two days a week at the IPS, helping to type the English version of the booklet "The Science of Impression" and also representing the IPS at a few group meetings. She is still quite new to our work, and in fact we had planned to propose her as President in two years time, but since Dr. Wiltrud Fritzsche resigned, things happened more quickly than foreseen. We feel confident that Rosemarie will be quick to learn the ins and outs of the job, and her motivation in our opinion is selfless and sound. But it is better we let you get directly acquainted with her, since she is present and quite able to speak for herself and to answer any questions you might have. Although she is the only candidate we have to propose, please feel free to make other proposals if you feel that is appropriate.

We look forward to spending a very fruitful day together.

#### OBJECTIVES ATTAINED in the 7th year of activity

— Publication of an expanded quarterly newsletter in English, French, German and Spanish, with the help of co-workers in Spain and Germany for the last two languages. This newsletter includes sections on esoteric studies, news from the United Nations, books for world servers, a calendar of forthcoming group activities, besides the usual reports on group meditations and group activities in which members of the IPS have participated. The section on esoteric studies is enclosed on a separate sheet following the suggestion of a co-worker in Spain; we issue one series on the symbolism of the Scriptures, i.e. on the hymn of the Rig Veda called the Purusha Sukta (The Hymn of the Cosmic Person) with every newsletter, and alternate a series on New Era Healing and a

series on Spiritual Astrology. The series on the Vishnu Purana is also sent as an enclosure with every newsletter.

— Beginning of a study group on the teachings of Pythagoras at the IPS headquarters in Geneva. We have listened to the recording of the course given on that subject by Dr. Krishnamacharya in Paris, and now the participants in the group agreed to study through the text once again, clarifying any doubts, applying the teachings in daily life and making them the subject of reflexion and inner work.

— Creation of branches of the IPS/WTT in Spain and Nigeria, and establishment of a contact address in Poland.

— Start of an Italian section, with the help of a new Italian co-worker living in Geneva and in cooperation with our co-workers in Italy. The main activity is for the moment compilation of our study series in Italian, correspondence and contacts in Italian.

— Creation of a folder to present the aims and activities of the IPS in a clear and short form, for general distribution to people interested in our work. The folder exists in English and German, a Spanish and a French versions are in preparation.

— Acquisition of a computer and modem to facilitate the work of the IPS co-workers at the headquarters in Geneva. The computer is a Mackintosh SE, with ImageWriter II printer. We have also tentatively joined Geonet through its Swiss branch (Comnet), to experiment with this new means of telecommunications via Telepac.

— Conclusion of proof-reading and composition of "Spiritual Astrology" in French. The work of publication and distribution in French of the books of the WTT has been taken over by another group in France.

— Organisation of an evening lecture at the University of Geneva with our co-worker in the Philippines, Jake G. Tan, editor of an alternative technologies magazine, "AT 80".

— Participation in international conferences in the USA, in Africa and in Europe, including presentation of our aims and activities at the first international conference on conflict resolution and creative leadership in Colorado Springs in USA, the first Cosmic Peace Conference at the Sserulanda N'Sulo Y'Obulamu Spiritual Foundation in Uganda, the Congress of Parapsychology in Basel, where we had a stand and the Arcane School Conference in Geneva, where we also had a stand with our publications.

— Participation in the foundation of the "Stiftung Einheit Allen Lebens" in Lucern, Switzerland.

— IPS/WTT publications donated to the library of the World Peace University, in Oregon (USA) and to the Robert Muller School in Texas (USA). Also partly to the Lampus Press, publishers of books on esoteric psychology in the USA.

## OBJECTIVES PROPOSED for the 8th year of activity

- To continue to spread on a global scale the information material of the IPS/WTT; it has proved to be useful as a basic study material on the science of man and in training for group life and world service. This includes publication in various languages and in particular completing the IPS publication program in English, French and Spanish, and developing it in Italian and Polish.
- Intensify our contacts already established with Eastern Europe, in particular Poland, Bulgaria and the USSR, and with Turkey and Malta.
- Establish new contacts with areas still untouched by our work, in particular Israel and the Arab Muslim world.
- Expand our cooperation with Robert Muller, former assistant Secretary-General of the U.N. for Social and Economic Affairs (ECOSOC), now Chancellor of the United Nations University for Peace in Costa Rica and still active as advisor for the present Secretary-General of the U.N.
- Maintain regular contacts and cooperation with the Aquarian Agency and the Hans-Nieper Foundation (finance, science).
- If financial situation allows, increased participation in group meetings and conferences where we can put forward the idea of the ten seed-groups and its importance for the New Group of World Servers today.
- If Radio for Peace International demands it, create a version of the newsletter for the radio.
- Holding annual, regular workshops on the ten seed-groups.
- Organising a computerized documentation centre on the ten seed-groups in Geneva, for which the equipment and the documentation already available, including library and archives.
- Greater emphasis on fund-raising.
